

KLOVE serves me as a resident of my local community by playing positive and encouraging christian radio programming. There is no other radion station of this kind that the Alexandria, LA area can tune into. I believe the effect of KLOVE being displaced by a LPFM broadcaster would be very negative....by forcing listens to tune into radio stations that they wouldn't normally listen to. One always feels the need to have some type of music or progamming on while driving. I also believe that the service provided by KLOVE is in the public interest because it reaches out to young and old. You never have to change the station because of bad language or trash talk.

Please don't allow KLOVE to be displaced. It is wonderful to tune into this station and be encouraged and have my spirted lifted on a daily basis.
